SCHOOL BAG EXAMPLE

Organize with labelled ziplock bags.

A photo-led guide for a 10-year-old: group belongings in labelled reusable ziplock bags so each category is easy to find.

A PRACTICAL UPGRADE WITHIN BUDGET

Use labelled ziplock bags, the existing lunch box and folder, and a padded device pouch.
Keep the phone and calculator. Choose the better practical solution when its full cost fits your budget.

Illustrative example using generated photos. Check your own bag’s size and compartments before packing.

BEFORE YOU UPLOAD - STEP 1

Photograph the bag

Take the front and both side views with the zips open. Show the side pockets and the depth of the bag.

HELP SORTWISE UNDERSTAND THE SPACE

Empty the bag first. Use good light and keep the whole bag in view. Include a view looking down into the open compartments.

Show the inside, too

Open each compartment wide. Photograph the main space, inner sleeve, front compartment and small pockets.

MAKE EVERY POCKET VISIBLE

Move the camera so it can see inside each pocket. These views help SORTWISE understand where different items could fit.

BEFORE YOU UPLOAD - STEPS 2 AND 3

Photograph everything outside

Step 2: Empty the bag and photograph all its contents. Spread items enough to make them visible; you do not need to organize them yet.

UPLOAD AND LET SORTWISE DO ITS MAGIC

Step 3: Upload the bag views and contents photos. Choose Use only existing items or Buy minimum necessary supplies for your expense budget. Mention anything you must keep, then ask SORTWISE to create your plan.

Extra angles and close-ups help the AI identify unclear items. Review its suggestions before acting.

Use labelled ziplock bags

PLAN 2: USE LABELLED ZIPLOCK BAGS

1. SORT YOUR THINGS.

Empty your bag. Group similar things. Check papers before discarding.

2. BAG AND LABEL.

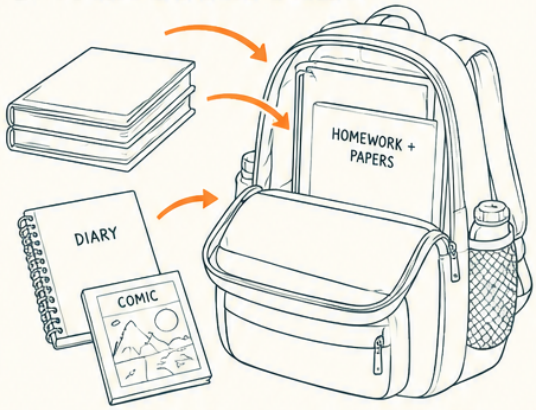

Use reusable ziplock bags for each group. Label the top and front. Protect sharp tips.

3. PROTECT SPECIAL ITEMS.

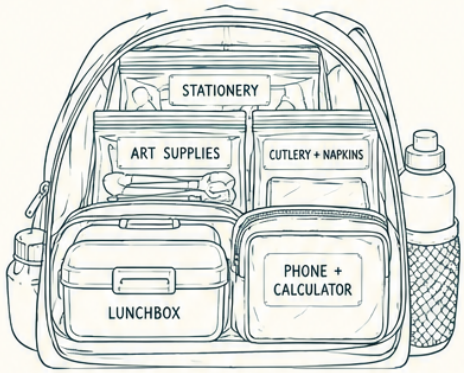

Keep food in a lunch box and devices in a padded pouch. Bag sanitizer separately.

4. PACK BOOKS FIRST.

Put tomorrow's books and your homework folder close to your back.

5. FIT THE GROUPS INSIDE.

Slide the labelled bags into place. Keep heavier items near your back and water outside.

6. CHECK AND GO.

Can you find each group easily? Close the zips. Ask an adult if your bag feels heavy.

Reuse bags you already have. Keep them clean and replace damaged ones.

LABELS AND FINAL CHECK

Easy to find. Easy to put back.

STATIONERY

Everyday pens, pencils, eraser and sharpener. Keep the ruler flat beside the books if it does not fit.

ART SUPPLIES

Coloured pencils, brushes, capped glue and closed scissors. Protect sharp tips. Keep the paint palette closed; carry art supplies only when needed.

PHONE + CALCULATOR

Use a padded pouch or protected pocket with a soft divider. Keep devices away from liquids.

LUNCH / CUTLERY + NAPKINS

Keep food and fruit in a rigid lunch box. Use a separate clean ziplock bag for the plastic knife, fork and napkins.

TISSUES + ID / SANITIZER

Keep tissues and the ID together. Close sanitizer tightly and give it a separate small ziplock bag.

HOMEWORK + PAPERS

Use a slim folder. Pack the required books, diary and one comic flat near your back.

Label each bag clearly. Reuse suitable bags and containers before buying. Keep heavier items near your back and the water bottle upright in an outside pocket.

BEFORE SCHOOL - QUICK CHECKLIST

Ready for tomorrow?

Check your timetable

Carry only the books and equipment you need tomorrow.

Check your homework

Put loose sheets in the folder and keep your diary easy to reach.

Check the seals

Close the lunch box, water bottle, sanitizer and paints. Keep liquids away from electronics and papers.

Check the fit

Everything should fit without forcing the zips. Do not cram in containers that are too large.

Check the weight

Try both shoulder straps. Ask an adult to help if the bag feels too heavy.

Keep it organized

After school, empty the lunch box, remove wrappers and return each item to its labelled place.

CHOOSE THE BETTER SOLUTION WITHIN BUDGET

Choose supplies that improve access, protection and everyday use. Check the full purchase cost, including pack sizes and delivery, against your budget. See the shopping list on the next page.

Shopping links and costs

US: a local alternative in dollars

IKEA ISTAD mixed-size resealable bags, 50-pack - $3.99.
25 bags each in approximately 2.6 qt and 1.2 qt sizes.

Buy mixed-size bags - IKEA US

Allow $2 for labels/marker if needed: planned total $5.99. If a padded pouch is also needed, allow $8-15 extra: total $13.99-20.99. Allowances are estimates; US totals exclude sales tax and delivery.

These are separate local shopping examples, not currency conversions. Prices and availability vary by location. Check the bag and item dimensions; do not buy every size just to fill the budget.
